

# SOLARIS BLANKET

"I am in love with my Blanket..."  
 Lisa C., Mediscen client

## "Reflection": Solaris Blanket

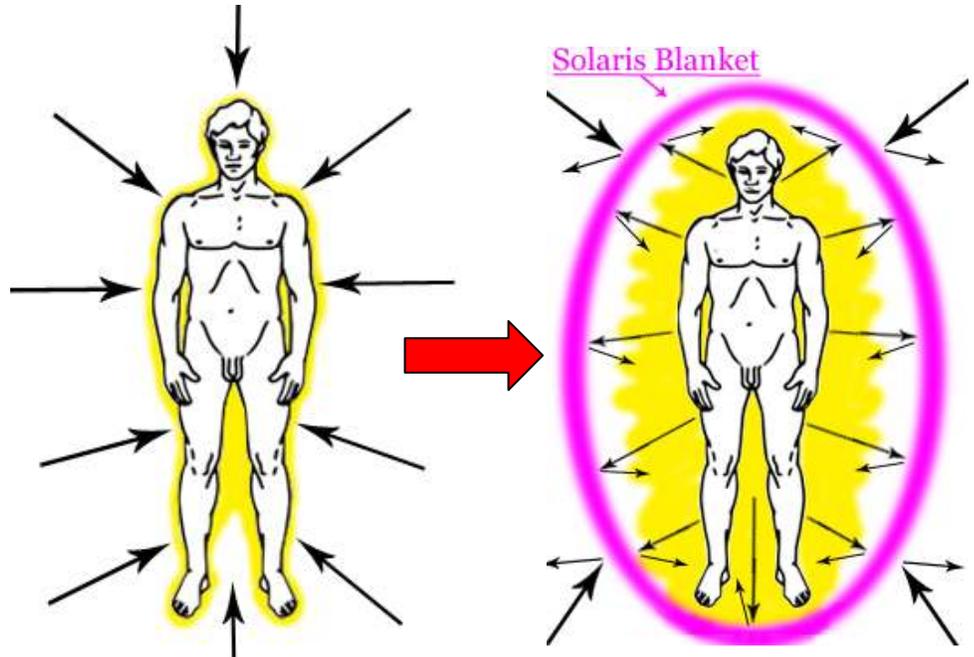

- protects the body from harmful outside energy fields;
- reflects and accumulates the body's own energy; improves **energy** distribution;
- "mirrors" the body's "energetic portrait" (**information management**)= **Feedback**

The **SOLARIS Blanket** has been developed almost a quarter century ago within a **Russian Space Research Program** as an evolution of the famous Wilhelm Reich's "orgone accumulator".

It is the **simplest Feedback device** that represents an "energy mirror" to the body.

The Solaris Blanket "cocoons the body in a field of positive self-generated radiations" making you younger, stronger, happier, and, yes, radiant.

You have to try it to FEEL it!

The Solaris Blanket is proven to be an excellent means of daily:

- **Stress Relief,**
- **Easing of Pain and Exhaustion,**
- **Prevention of Premature Aging.**

By gently and gradually aligning the body's energetic processes, it **assists in healing** from a wide variety of dis-ease conditions.

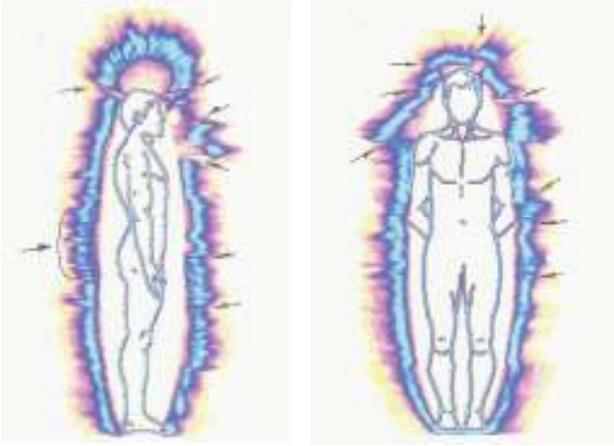

SOLARIS is entirely **safe and natural**. It requires **no special training**. Use it for pain relief...stress relief...sleep disorders...to increase resistance to seasonal infections and viruses...to reduce the symptoms of many diseases...to increase blood circulation and relax muscles...as an anti-aging treatment...or just to feel warm and toasty.

The SOLARIS Blanket is good for **absolutely everyone** in **any circumstances**. It is especially valuable for **children** and **elderly people**, because it strengthens the body against dangers and hazards of its environment and preserves the body's energy resources. SOLARIS can be used to great advantage to maximise **athletic performance**. It has also proven very effective for **veterinary use**.

**Q:** There are a few Energy Blankets on the market – and also the famous Orgone Blanket...  
**Which Healing Blanket is best for me and why?**

**WE RECOMMEND: The SOLARIS BLANKET**

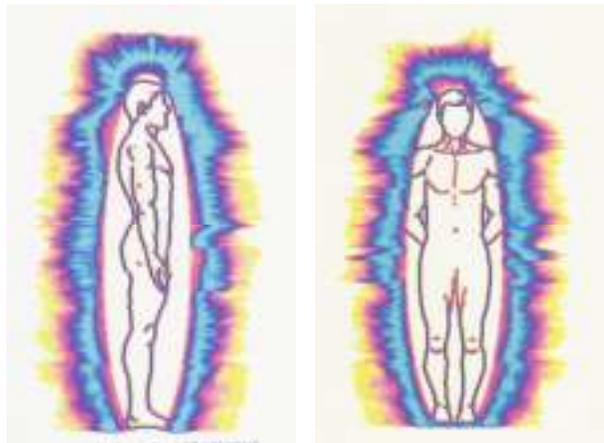

**BEFORE SOLARIS Blanket**  
**Client in Severe STRESS –**  
aura is weak and uneven, arrows show holes

Even though the SOLARIS Blanket is indeed based on the work of Wilhelm Reich, **it is not the same as the Orgone Blanket**. Russian space scientists merged the Reich's research with their own ideas and observations of the effects of cosmonaut's costumes – and came up with the version of the Blanket as we now know as SOLARIS.

The SOLARIS Blanket originally contained the same shiny metalized material that cosmonauts' space costumes were made of, with one of the metals being **palladium** - an extremely expensive yet very effective EMF isolator and reflector. The material is lighter now yet **SOLARIS still stays mainly "an energy mirror" and a feedback device**.

SOLARIS is lighter and thinner than the Orgone Blanket and very user-friendly. It acts as a **reflective shield** to protect your cells from the ravages of dangerous electromagnetic, microwave, and electro-static fields ever present in the atmosphere. The SOLARIS' shield also **traps your body's own heat and electromagnetic fields and reflects them back**. Skin temperature increases by 1-1.5 degrees Celsius. Blood vessels dilate and muscles relax in the nurturing warmth. At the same time, the **electrical charge is heightened on the skin surface and in cells** stimulating the autonomic nervous system and enhancing metabolic functions.

**AFTER SOLARIS Blanket**  
**Client in Severe STRESS –**  
strong and even aura showing no holes in it

As a result, the SOLARIS Blanket has proven to be highly effective in the treatment of cardio-vascular and respiratory diseases, muscular-skeletal injury, degenerative disorders, and digestive problems. Research has shown improvement of **up to 92%**, particularly in nervous system disorders and in **stress relief**. The **elderly and infirm** are particularly at benefit for the rejuvenating, restorative effects of SOLARIS.

### The Healing Technology Checklist

- Is it **EFFECTIVE**?  - Yes
- Is it **SAFE**?  - Yes
- Does it work **FAST**?  - Yes
- Is it **EASY** to use?  - Yes
- Can I do it?  - Yes
- Can I **AFFORD** it?  - Yes

**YOU CANNOT AFFORD NOT TO HAVE IT!**
