

SCENAR & COSMODIC

“Electricity”: SCENAR/COSMODIC

- reorganizes the body’s energy resources and directs them to the needed areas;
- cleans the body’s computer organizing and systematizing programs = registry cleaner and defragmentation;
- breaks “**energy cysts**” and jump-starts **RE-GENERATION** programs based on **Feedback**.

SCENAR stands for **Self-Controlled Energy Neuro-Adaptive Regulator**. In essence, it is a **Universal Regulator of Bodily Functions**.

SCENAR was designed in the mid-’80s for the **Russian Space Research Program** to help cosmonauts maintain their health while in space.

SCENAR is wholistic in nature energy-healing technology that aligns and **strengthens the natural healing system** of the body. In doing this, it promotes a **fast recovery** from a wide variety of maladies, from simple colds and bruises to autoimmune diseases and degenerative disorders.

SCENAR devices are low-frequency, adaptive electrical stimulators with two unique features:

- The **shape of the SCENAR impulse** resembles a natural neuro-impulse which allows SCENAR to **TALK to the body**.
- The **FEEDBACK** feature determines the SCENAR’s ability to **HEAR the body**.

In the last few years SCENAR evolved into **COSMODIC** – the first energy-healing technology that is capable of helping you not just heal, but actually **REGENERATE**. COSMODIC promotes restoration on the cellular level, making your body even **stronger than it was before** the disease or injury occurred.

SCENAR/COSMODIC devices by their very nature are extremely sophisticated electronic tools and yet, they are very easy to use: simply apply the device to the spot that hurts and leave it there, letting it do its job. These devices can be easily used by **anyone, anywhere**, and for virtually **anything** that needs healing and regeneration.

The famous “Star Trek healing device” is becoming a reality.

SCENAR/COSMODIC technology offers **many benefits**:

- It is highly effective, in roughly **95 percent** of cases. (This figure is based on the experience and reports of Russian SCENAR therapists published in the annual digests *SCENAR-Therapy* and *SCENAR-Assessment 1997 - 2007*.)
- It is a **non-drug therapy** and it is completely **safe**
- It is **not invasive** and **not painful**
- It does not have **negative side effects** or complications
- It cuts healing time dramatically, by **one-half to two-thirds**

**Q: There are so many models of SCENAR and COSMODIC devices on the market...
Which SCENAR/COSMODIC device is the best for me?**

WE RECOMMEND: The DOVE = Good SCENAR

The DOVE (Device Organizing Vital Energy) is the **SCENAR technology at its finest** and the top of SCENAR evolutionary tree. Don't be misled by its simple look – The DOVE is your universal health assistant that is highly effective, reliable, and user-friendly. It is **the last and the best SCENAR** designed by “the father of all SCENARs” Dr. Alexander Karasev, who called The DOVE “**a true SCENAR**”, or “**a SCENAR as it should be**”.

WE RECOMMEND: COSMODIC = REGENERATION

If SCENAR listens to the body on **1 channel**, COSMODIC listens on **46**. It then builds a mathematical model of where the body *is*, calculates where it *should be* - and **leads the body to REGENERATION**. It is even capable of determining the exact moment when cells switch to the regeneration mode (**the “DOSE”**). If SCENAR can help you heal “**like nothing ever happened**”, COSMODIC will make you **better than pre-injury (disease)**. COSMODIC technology is highly sophisticated, sensitive, and expensive – but it's well worth it. It is represented in the **C-DOVE**, the **715**, and the **EX735** devices.

WE RECOMMEND: EX735Ag = SCENAR+COSMODIC
